The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	Application No. 10/766,766	Applicant(s) BARTH ET AL.	
	Examiner Natalia Levkovich	Art Unit 1797	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Upon further consideration, the following restriction requirement applies:

Claims 1-17 and 31-35 contain the following patentably distinct species of the claimed invention:

Species I (claim 3), drawn to a plate assembly comprising a well plate with the wells having closed ends formed of elastomeric material;

Species II (claim 4), drawn to a plate assembly comprising a well plate including a film fixed to the plate surface that covers the wells to form the closed ends of the wells;

Species III (claims 5-6), drawn to a plate assembly comprising a well plate including a film fixed to the plate surface adjacent to the open ends of the wells;

Species IV (claims 7-10 and 14-17), drawn to a plate assembly comprising a multi-array device including a foundation support;

Species V (claims 31-35), drawn to a plate assembly comprising a well plate with the wells having closed ends formed of a flexible end wall.

Art Unit: 1797

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Note that claims 2 and 11-13 will be examined together with the generic claim 1.

Note that claim 13 is further restricted to one of the species of the plate assembly, additionally comprising one of the following elements: at least one mechanical clamp, radiation, heat, external fluid pressure, vacuum, an adhesive or a pliable gasket.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1797

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
